Change Email

Current:

johndon123@gmail.com

Update email address

- This page will start as a sidebar which will only display the main category
  - Once clicked on a specific category, only then will it open up more of the sub categories
- The category clicked on from the settings page will open up a sub-category for it. The sub category opened will open another category to change/update the desired category
  - Ex: Privacy and Safety —> Received messages from anyone —> Discoverability and Contacts —> Let others find you from username or Let other find you from email
